**Happy Birthday to:**

*Canie Hollins 6/3*

**JDN Monthly Motto**

*"Vision without action is a daydream, action without vision is a nightmare."  
Japanese proverb*

## JDN Joke of the Month!

*A blind man visits the state of Texas*

There once was a blind man who decided to visit Texas. When he arrived on the plane, he felt the seats and said, "Wow, these seats are big!" The person next to him answered, "Everything is big in Texas."

When he finally arrived in Texas, he decided to visit a bar. Upon arriving in the bar, he ordered a beer and got a mug placed between his hands. He exclaimed, "Wow these mugs are big!" The bartender replied, "Everything is big in Texas."

After a couple of beers, the blind man asked the bartender where the bathroom was located. The bartender replied, "Second door to the right." The blind man headed for the bathroom, but accidentally tripped over and skipped the second door. Instead, he entered the third door, which led to the swimming pool and fell into the pool by accident.

Scared to death, the blind man started shouting, "Don't flush, don't flush!"

Texas - we love you!

***In honor of Memorial Day, J.D. Neuhaus L.P.'s office will be closed Monday, May 25, 2009***

# FOCUS ON JDN APPLICATION—AIRPLANE YARDS

## *Mini Air Hoist 275 lbs to 1 ton Capacity*

### Airplane Yard Applications

Handling of injection pumps in the test field, lifting and turning of machine parts during welding processes. Handling of wing parts and more!

### Advantages

Explosion proofness, precise load spotting capability during lifting and lowering, 100% duty cycle.

### Features

- ◆ New patented wear-resistant braking system
- ◆ Rugged lightweight aluminum housing
- ◆ Precise variable lifting and lowering speed
- ◆ Few components mean easy operations and low maintenance
- ◆ Very low headroom
- ◆ Easy to handle because of its low weight
- ◆ Complete turnkey solution for 1 ton and below
- ◆ Chain container standard
- ◆ Always in stock!

Handling of wing parts with two JDN Mini 500 Air Hoists. Sensitive and accurate lowering is most important on handling the wing parts
