Air Wire Rope Alternatives

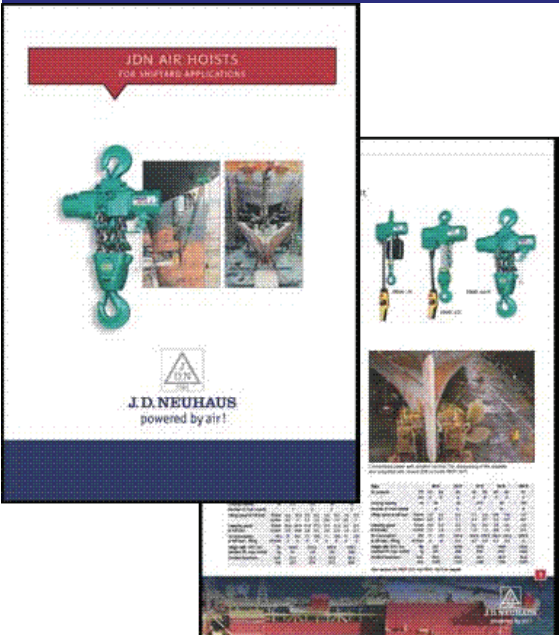

Save headroom and money on the bottom line with J.D. Neuhaus hoists. The air wire rope product line has competition in town. Our J D Neuhaus Profi chain hoist series is a great alternative! Our 6 ton Profi has headroom of 26.5 inches in comparison to the competition's 30" to 41" saving you valuable headroom and gaining valuable production space. As an added value, the Profi series can save your customer a solid amount on the bottom line.

Our self lubricating units cut down on costly maintenance and production downtime. Chain is also proven to be much sturdier than the wire rope saving overall cost of the unit plus you get true vertical lift!

The Profi Series is available from 1/4 ton to 100 ton capacity. Call 800-331-2889 today for your quote

NEW JDN SHIPYARD BROCHURE

JDN Air Hoists have been used successfully in the shipyard, on and offshore industry for decades.

Compared with electrical hoists JDN Air Hoists have a wide application range: Installation or disassembly of rudder blades, propellers, drive shafts or general installation work on new ships.

With this 8-page brochure we introduce you to the JDN Air Hoists and Winches which are applicable for these jobs.

The brochure is now available. Request your copy today! Call 800-331-2889 x107

Web Site Enhancements

J.D. Neuhaus Profi .25Ti - Profi 2Ti and mini 125 - 1000 Air Hoists On-line Configurator and Quote Request

The new on-line configurator and quote request feature allows you to view hoist technical data and enter your quote request based on your requirements.

The Profi configurator allows you to choose the capacity, height of lift, control type and length, trolley requirements and various options including chain containers and service units. Also available are checks for explosion classifications and energy supply.

Since the mini hoist line is a standard, pre-built unit, you can choose the mini Air Hoist that meets your capacity, height of lift and control length requirements and choose a trolley if needed.

For Profi Air Hoist configurator go to our web site www.jdneuhaus.com, click on Products, JDN Air Hoists & Trolleys, Profi Air Hoists, "more information about Profi 0.25Ti—2Ti" and finally click on the Ask JDN box.

For Mini's choose the Mini Air Hoists link from the product page then click on the Ask JDN box.

New Employee Announcement

JDN continues to fulfill our growth plans. February 2, Mark Koski will join the J.D. Neuhaus sales team as a Regional Sales Manager covering the West, Northwest, Mountain and Southeast areas. You can meet Mark at the Westec 2008 Exposition & Conference at the Los Angeles Convention Center March 31 - April 3, 2008

Tips of the Month

Our Web Site has been updated with the trade shows J.D. Neuhaus will be attending in 2008 throughout the world. Go to the link below and then click on the Trade Fair box to see when we will be in your area!

SPLIT ROPE DRUM

With immediate effect JDN Air Winches Profi Lifter 2600/4400 and Profi Puller 4000/6600 can be delivered with a split drum option. In this case an additional drum flange is mounted in the middle of the rope drum which divides the drum in two parts. This drum flange contains four rope-end fastenings, two for each side, with opposite orientation. So on each side, both spooling directions are possible

ALL SUBMISSIONS TO THE JDN NEWSLETTER ARE ENCOURAGED AND APPRECIATED.
