JDN Mini Series Pendant	2
On the Horizon	2

As our world in the 21st century has evolved, there is one thing is for certain, the internet has become increasingly important to business. Website traffic in American industry is on the rise. Your website layout has the ability to increase your business, and give your clients a sense of your company's corporate credibility. Does your website show new customers that your company is a certified distributor or user of JDN products? Without the official 2006 banner, one cannot be too sure. There are many of you reading this already have the banner on your homepage, and we thank you for your support. It is not difficult to get the banner on your homepage, it can be up and running in just a few minutes. One phone call from your IT, webmaster or office manager is all it takes. Please call 800-331-2889 for further information.

### PART FOUR: LOUIS NEUHAUS

Louis Neuhaus

**Louis Neuhaus** ( October 31st, 1848 to February 20th, 1905 )  
 One year after his father's death Louis Neuhaus married Emma Brinkhoff, later she will prove to be an important part in the history of JD Neuhaus. Under the leadership of Louis Neuhaus the company became more specialized in its products. The mining industry prospered from the growth in general industry which was - apart from the consumption of coal in private households - the main consumer. In addition the mining industry created jobs in other service industries due to its high demand on the machinery and equipment required to process the coal. One of the tools more frequently requested was the Neuhaus winch. The Neuhaus Company at this time was not yet much more than a manual smithy with a winch fabrication facility. Louis used his vision to expand the business, and found great success. He demolished the old smithy and built a much larger smithy next to the family dwelling where the first manually driven manufacturing machines began production of winches. This new larger operation paved the road for JDN's future.

## Maximum Control for the Mini Air Hoist

J.D. Neuhaus is pleased to announce its Mini series pendant. A robust and rugged cast metal push button pendant for use with the entire line of Mini series air hoists. This incredibly sturdy German engineered product is manufactured with longevity in mind. The pendant is resistant to wear, and for use in industrial settings with an emphasis on durability. There are no limitations for an operator due to its full flow control. The JDN Mini series pendant features sensitive control. Jason Kahler, Technical Sales Manager for J.D. Neuhaus, states that "Variable speed control is of the utmost importance to our industrial customers. Having the ability to offer a JDN quality hoist with precise feathering and load spotting capabilities is a win-win situation. Operators using the Mini have been highly impressed with this combination." The pendant is available on the Mini line in capacities of 275 lbs, 550 lbs, 1100 lbs, and 2200 lbs. The standard lift heights for the hoists are 10 feet, 16 feet, and 26 feet. Contact your local distributor or JDN sales manager for more details.

## ON THE HORIZON

### May 1st - May 4th

Founded in 1969, the Offshore Technology Conference is the world's foremost event for the development of offshore resources in the fields of drilling, exploration, production, and environmental protection. OTC is held annually at Reliant Center in Houston. OTC ranks among the largest trade shows held annually in the United States and is among

the 10 largest meetings in terms of attendance. Attendance consistently exceeds 50,000, and more than 2,000 companies participate in the exhibition. OTC includes attendees from around the globe, with more than 110 countries represented at recent conferences. Stop by our booth and see a 20 ton JDN hoist. We will also have a Mini air hoist, and two of our pneumatic winches on display. Frank, Don, and John will see you there!

### June 7th - June 8th

Come visit JDN's booth for the Facilities Expo at the Anaheim Convention Center  
800 West Katella Avenue,  
Anaheim, CA 92802

Jason will be on hand with an operational Mini air hoist, come by and check it out!

### Employee News:

Congratulations to Frank on the new addition to his family, a baby boy!  
John McGarry is visiting the Midwest this month, keep an eye out.
